CARRARA WHARF,
THAMES BANK, PIMLICO.

Office, 8, Crescent-terrace, Millbank, London, 11th May, 1852.

GENTLEMEN,—

I beg to inform you that I have received instructions from Mr. Fabbricotti, to offer by PUBLIC SALE, on WEDNESDAY, the 2nd of JUNE, the whole of his splendid new stock of ITALIAN MARBLE, consisting of about eight hundred tons of Veined, Sicilian, Statuary, Dove, and Bardilla Marbles, of the very finest quality and sizes.

The experiment which Mr. Fabbricotti proposes to make in thus offering to public competition a new stock of Marbles, so well known in London for its excellent quality, as an institution of the usual mode of sale at first hand, adopted by his family in the United States of America, where the consumption of this article, chiefly owing to this method of sale, is most extensive, and which practice, whilst it evidently enables the manufacturer to purchase at the lowest possible prices, tends very much to keep the trade in a wholesome condition.

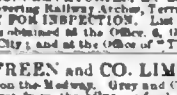
The Catalogues will be ready in the course of a few days, and will contain the separate dimensions of each block: a glance at which will at once convince you of the superior nature of the parcel.

It may not be generally known that Mr. Fabbricotti is the only person selling Marble to the United Kingdom, who is the Owner of Marble Quarries in Italy.

I remain, Gentlemen,
Your obedient Servant,
THOS. THOMPSON.

MESSRS. BROWNE and CO. Proprietors of the Marble and Anaglosis Works, University-street, London, have the honour to announce to the nobility, gentry, architects, builders, and the community generally, that they are now submitting their extensive and matchless STOCK for SALE at greatly reduced prices. An eligible opportunity is thus presented for selecting sculptured productions of the highest order, also, an extensive variety of CHIMNEY PIECES, PEDESTALS, &c. of classic and other beautiful designs and elaborate workmanship, are among the specimens specially inviting the attention of parties whose houses are undergoing embellishment; while a large collection of statues, busts, vases, and other appropriate decorations, are not less worthy the notice of the connoisseur and the man of taste; and to those who may be desirous of adding to the picturesque attractions of any park, or the pleasure-ground, are offered statues, vases, colonnade, pedestals, sarcophagi, &c. The stock is on view daily from nine in the morning till seven in the evening, the proprietors having adopted this mode of effecting its speedy reduction, preparatory to Mr Browne's retirement from the concern, as early as practicable. In the meantime it is respectfully intimated that all orders will be executed by the firm as usual, and executed with the same regard to perfect workmanship and strict economy which has hitherto secured them so many distinguished patrons.

ASPHALTE.—GERVASE POOTTIT, Trinidad Asphalte Works, Rotherhithe; established 1834. Every description of Flooring laid with the above durable material in the best manner. Acknowledged by eminent engineers and architects to be superior to the article called "Claridge's," and at half the price.—Importer of Trinidad Asphalte.



PATENT METALLIC LAVA,
Manufactured only by
Messrs. ORSI and ARMANI.

For the INTERIOR of CHURCHES, MUSEUMS, HALLS, VESTIBULES, CONSERVATORIES, &c. &c.; for Foot Pavement, Flooring, Covering Railway Arches, Terraces, Roofs, &c. &c.

SAMPLES LAY FOR INSPECTION. List of Prices, and every Particular, may be obtained at the Office, 6, Guildhall Chambers, Basinghall-street, City; and at the Office of "The Builder."

THOMAS FREEN and CO. LIME BURNERS, Wouldham-on-the-Medway. Grey and Chalk Lime supplied by the freight, direct from the Kilns, or fresh from their wharfs, viz. Canal-road, Kingsland-road; Queen's Wharf Great Cambridge-street, Haggerston; or King's Wharf, New Wharf-road, Battle-bridge. N.B. Laths, Tiles, Chimney-pots, Plaster, Hair, Welsh Goods, &c. &c. &c.

BARROW LIME.—This celebrated hydraulic Lime, from the Blue Lias Stone, can now be forwarded by railway fresh from the Kilns to any part of the kingdom. It is becoming much more generally used for Concrete, and can be supplied ready ground for that purpose. Price, &c. may be obtained on application to JOHN ELLIS and SONS, Leicester.

GREAVES'S BLUE LIAS LIME.—The superior manner in which the above is ground renders it cheaper for concrete or stucco than any other lime or cement. The shell lime for mortar is burnt on an improved principle leaving scarcely any core. The satisfaction constantly expressed by Engineers, Architects, and Contractors of the above is the best recommendation. Gibbs, Canning, and Co.'s Blue Vitrified Bricks, Pipes, Junctions, Bends, and Fire Goods.
ROMAN, PORTLAND, PARIAN, ANSTON, and LIAS CEMENTS of the best quality.
HEYWOOD'S, PAVIORS', STOCKS, and other Bricks.

TO ARCHITECTS, BUILDERS, &c.

ALL descriptions of TERRA COTTA, CEMENT, and PLASTER CASTINGS, executed in a superior manner, and at moderate terms, by J. HERBERT and SON, Bankside, No. 3, Parker-street, Drury-lane. A large stock of mouldings, Trusses, Lintels, and other Cornish Chimney Flowers, Balusters, Trusses, &c.; Rimbaldons and other Chimney Shafts.

ATKINSON'S CEMENT, so long known and esteemed in London, for plastering purposes, is a quick-setting cement, that requires no coloring. Sold exclusively by JOHN BARLEY WHITE and SONS, Millbank-street, Westminster, and Southampton, Liverpool.

KEENE'S and PARIAN CEMENTS and FRENCH PLASTER for internal uses.—These well known hard cements dry quickly, and may be painted upon within a few days. Made and sold by JOHN BARLEY WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT is the cheapest, because the best Cement for external uses. As a stucco, it requires no colouring, does not vegetate, and is not affected by frost. As a mortar for brick-work, it may be mixed with three to four parts of sand; and for concrete, it will carry ten to twelve times its volume of sand and gravel.—Manufactured by JOHN BARLEY WHITE and SONS, 29, Millbank-street, Westminster, and Southampton, Liverpool.

PORTLAND CEMENT, in Casks of Four Imperial Bushels. QUANTITY NOT WEIGHT. BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cements Works, West Ham, London.

6, South Wharf, Paddington.

PORTLAND CEMENT.—CHARLES RICHARDSON has the greatest confidence in introducing to the Trade the above superior CEMENT, being of uniform colour and quality in consequence never before obtained in Portland Cements. It possesses extraordinary superintending qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, has no grease, or crack, combined with which its unsurpassed hydraulic properties stamp it at once as the first cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by those who have hitherto held the monopoly. Manufactured by R. GREAVES, Esq. at his Works, adjoining the River Avon, and sent to all parts of the kingdom per boat or rail, at a reduced price to the trade.

PORTLAND CEMENT.—JAMES WESTON, having commenced manufacturing the above Cement, begs to inform the trade in general that he can supply them with any quantity they may require, either at his Works, Hill-end, Feeder; 61, Andrew's Wharf, Regent-road, Black-friars; or Middle Scotland-yard, Westminster. Manufacturer of Roman, Lias, and Mastic Cements, French and English Plaster, &c.

PORTLAND CEMENT WORKS, NORTHFLEET, KENT.—Messrs. ROBINS and Co. solicit the attention of their friends and the public to their superior Cement, confident that the great improvements in the manufacture thereof during the present year will ensure to them a continuance of that patronage with which they have so long been favoured.—Orders received at the Works, and at Great Scotland-yard, Whitehall.
March, 1852.

PORTLAND CEMENT.—The difficulty of procuring this valuable Cement of uniform colour and strength has hitherto prevented its more general use. Contractors and Builders will find that these two important qualities may be depended on with the greatest certainty in that manufactured by CHARLES J. HILSON, at his Roman and Portland Cement and Plaster of Paris Works, Faversham, Kent, at which place, as also at his Wharfs in London, 4, Upper Thames-street, City, and Great Scotland-yard, Westminster, orders can now be received to any extent.

PATENT PORTLAND and ROMAN CEMENTS.—WINFIELD, BELL, and CO. of East Greenwich, Kent, having now completed some heavy contracts, are prepared to execute orders to any extent for either of the above materials. Many highly respectable references can be given where their cements have been successfully used. Orders received and executed either from their works at Greenwich, or their wharfs, Lindsey Wharf, Chelsea, or 24 Wharf, Harrow-road, Paddington.—Agent at Southampton, Mr. GEORGE SHARP, Canon Wharf.

MEDINA (ROMAN) CEMENT.—The material of which this cement is made is obtained in the Isle of Wight. It has all the properties of the Sheppy stone, but is much better adapted to engineering works, from the rapidity with which it sets and hardens under water. It has been largely used in the great Breakwater at Cherbourg; in a similar work at Aldernay; and at Dover new pier, to unite the masonry. The foundations of the centre pier of the Tubular Bridge at Menai Straits is laid in Medina Cement. A new quarry at Sandown Bay, Isle of Wight, has been constructed of no other material but this cement and sand on shingle. The work extends 300 feet under the sea, and is crippled to the most violent gales of the Channel, in a position where every former construction had been repeatedly washed away. The convenience of the varied qualities of Roman Cement are superseded by the use of this improved manufacture.
CHAS. FRANCIS and SONS, West Ham, London; or West Medina Mill, Newport, Isle of Wight.
Agent for Southampton, R. L. PLUDER, Ameman Wharf.

PARIAN CEMENT for internal use, to be PAINTED IN A FEW HOURS, AND PAPERED WITHIN A COUPLE OF DAYS.—CHARLES FRANCIS and SONS, Patentees, West Ham, London.

GEORGE and THOMAS EARLE, CEMENT MANUFACTURERS, HULL.
Lights and Dark equal to any made.
Also, Manufacturers of PLASTER, MASTIC, &c.
Importers of MARBLE and PUZZOLANA.
Dealers in Stone, Slate, Hair, Whiting, &c.

ROMAN and OTHER CEMENTS, Manufactured by J. M. BLANKFIELD, successor to the Patentees, PARKER and WYATT, who, in 1796, first introduced PARKER'S ROMAN CEMENT; also Terras and Portland Cements, English and French Plaster, Terra Cotta Chimney Pots, Trusses, &c.
Manufactory, Mill Wall, Poplar; Depôts, Commercial-road; Lambeth, and Paddington-basin.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

As used at St. George's Hospital, Hyde Park Corner.
JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, in possession every advantage over the common Lime Wash or Water Colour for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any colour.—DOES NOT RUB OFF—is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Union Workhouses, Barracks, Schools, Prisons, &c. One coat will cover 200 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.
JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price and its suitableness for internal as well as external surfaces, paints 10 above all other materials of its kind; it has no smaller qualities, may be painted or papered in a few days; never blisters, cracks, or vegetates; sets as hard as stone; and may be cleaned with a brush and water.
The merits of the PAINT are well known for its application to above work of all kinds, and external work generally. Manners to testimonials, prospectuses, and every information may be obtained, on application to the Sole Agents, PHILIP HARE and Co. at the Warehouse, Wood-yard, Upper Thames-street. A liberal allowance to wholesale dealers.
